PARIS.

"The following new Ordinance, for regulating the Field-Equipages and Tables of the general Officers of the King's Armies, &c. bears Date the 15th of April 1707.

HIS Majesty being inform'd, that the Ordinances he has formerly caus'd to be made for regulating the Equipages of the General Officers, and of the Troops in his Armies, and in what Manner their Tables shall be serv'd when they are in the Field, have not been intirely observ'd and executed, and that the Inconveniencies which he design'd to prevent by those of the 1st of February 1703 and of the 1st of April 1705, do still frequently happen, and being minded to put a Stop to their Continuance. His Majesty has order'd and orders, that the said Ordinances shall be complied with and observ'd, in all Particulars that are not contrary to this present Ordinance; it being his Intention that during the approaching and the future Campaigns, the Lieutenant Generals, Majors General, Brigadiers; and other General Officers of his Armies, as also the Collonels of Foot, Horse, and Dragoons, and other Officers, and the Volunteers that keep Tables, shall have them serv'd only with Soups, Flesh or Fowl roasted, Ragouts of Butcher's Meat; and for the Dessert, Cheese, Butter, Fruit raw or cook'd; but no Sweetmeats, Biskets, or Marchpanes. Thus they will be able to bear the Charge of keeping their Tables, and to invite to them the greater Number of Officers.

As for Equipages, his Majesty's Intention is, that the Generals of his Armies may have as much Baggage and as many Horses as they shall judge necessary.

That every Lieutenant General shall have only 2 or 3 Waggons or Carts, and 40 Horses in all, as well for himself and Retinue, as for the said Waggons; or one Waggon and 30 Horses in all.

Every Brigadier, and Collonel of Foot or Horse, one Waggon and 20 Horses in all.

Lieutenant Collonels, Captains and other Subaltern Officers, shall have no heavy Baggage, either Waggon or Cart, nor any other Wheel-Carriage whatsoever: Such Officers excepted, who because of the Indisposition or Infirmary may want a Chaise.

His Majesty thinks fit that each Battallion shall have two Sutlers Waggons or Carts, provided the same be drawn by 4 good Horses each.

That a Regiment of Horse or Dragoons, whether of two or three Squadrons, shall likewise have two Sutlers with two Waggons or Carts; Which Sutlers may encamp with the Regiment; and if they have other Sutlers, they shall not have Wheel-Carriages, but only Horses with Panniers or the like.

The other Sutlers that have Wheel-Carriages, shall be oblig'd to encamp in the King's Quarter, or in the Quarters of the General Officers on the Right or Left, in such Places as shall be mark'd out for them by the Provost of the Army or his Officers; the Number of which Sutlers is not restrain'd, provided they have their Waggons or Carts drawn by at least 4 good Horses each.

Every Regiment of Horse Dragoons or Foot, shall be allow'd to have a Baker with one Waggon drawn likewise by 4 good Horses.

If it happen that the Regiments of Horse Dragoons or Foot be not provided with Sutlers or Bakers with Waggons; the Collonel or other Officers of such Regiment shall not on that account be permitted to have Waggons of their own instead of the Sulter's or Baker's, unless for subsisting the Regiment.

And whereas it may happen that many general Officers may have Vintners or Sellers of Wine, attend them into the Field: His Majesty orders, that the said Sellers of Wine shall encamp in the Quarter wherein such General Officers shall be, with the other Sellers of Wine; and he most expressly forbids the said General Officers to lodge them with their other Equipage.

His Majesty most expressly forbids all General Officers, Collonels and other Officers of his Armies, to make Use of any Provision-Waggon; and forbids the Directors of the Provisions to furnish any such Waggon to any Person whatever.

'Tis his Majesty's Desire, that those who shall command his Armies in Chief, conform themselves to his Pleasure declar'd in this Ordinance, and take Care to send him the Names of such as break it, who he declares shall be remov'd from serving in the Field, and stay in some Place near the Frontier during the Campaign.

His Majesty commands and enjoyns the Generals of his Armies, his Lieutenant Generals, Majors General, and Intendants of his said Armies, to see this present Ordinance duely observ'd, and prevent its being disobey'd under any Pretext whatsoever. Done at Versailles, the 15th of April 1707.

Whereas Mr. Yarwell, Mr. Stertop, and Mr. Marshall, the 3 first were our Masters with whom we serv'd our Apprenticeships, and since for several Years we have made the best of Work for them and Mr. Marshall; and now they being envious at our Prosperity have publish'd several False, Deceitful, and Malicious Advertisements, wherein they assert that we cheat all that buy any of our Goods, and that we pretend to many Impossibilities and impose on the Publick, they having wrested the Words and Sense of our Advertisements, pretend that we affirm that a 2 Foot Telescope of our making will do as much as the best 4 Foot of another Mans make, and they fraudulently show in their Shops one of their best 4 Foots against our small one, and then cry out against the Insufficiency of o 2 Instrument. Now we G. Willey and T. Brandreth being notoriously abus'd, declare that we never did assert any such thing, or ever did pretend to Impossibilities, but will make good in every particular all those (note these are their own Words) (Impossible, Incredible, Miraculous, Wonderful and Astonishing) things mention'd in our Advertisements; which things perhaps may be Impossible, Incredible, Miraculous, Wonderful and Astonishing to them, but we assure them they are not so to us: For we have small Miraculous Telescopes, as they are pleas'd to call them, that do such wonders that they say it is impossible to make such, by the Assistance of which we will lay any Person 10 l. that instead of 2 Miles mention'd in our Advertisements, we will tell them the Hour of the Day 3 if not 4 Miles by such a Dial at St. James's or Bow. We are also making a Concave Metal Speculum that will unite the Sun Beams so vigorously that it will melt Steel and vitrify the hardest Substance, as small Stones, &c. Also several sorts of Microscopes, some of which magnifies the object above 2 Millions of times bigger then it appears to the naked Eye. All these things are as they say impossible to them, but are and will be made by G. Willey and T. Brandreth at the Archimedes and Globe in Ludgate-street, the Corner next St. Paul's, and second Spectacle-Shop above that which was Mr. Yarwell's. Let Ingenuity thrive.
